

PREMIUM DECOR CORNER-FITTED SUN SAILS

We sew the sun sails using a very strong Premium Decor fabric with 200g/m² grammage, impregnated to protect against light rain as well. Owing to this special fabric, the sun sails provide almost 100% shade, without darkening the adjacent spaces.

As standard, they are available in four colours: white, beige, ashen (grey) and green. Our company also focused on various finish options so that the sun sails could be hung in any space. With the thought-out solutions and neat finish, they can be used almost everywhere. They decorate every place regardless of whether they are hung on a structure or use the existing infrastructure.

They are a valued choice for their versatility, functionality along with low purchase costs, stylish look, easy use, easy installation, which can be performed in a way non-invasive for the structure, as well as their compatibility with our other products.

Note! When choosing a product, please read the instructions for use.
