

## INFORMATION SHEET

### MESHFLAG DRAPES/CURTAINS WITH PRINT

We sew our drapes/curtains using a very strong factory white meshfag with 110g/m<sup>2</sup> grammage, with single-sided print. Owing to this special fabric, the covers provide almost 40% shade, without darkening the adjacent spaces. Since the material is partly translucent, the user will also be able to enjoy the view from the other side, or to “keep an eye” on the surroundings. As a standard, we offer curtains with seven fantastic designs.

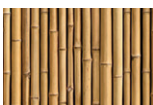

With the thought-out solutions and neat finish, they can be retracted and extended, without using any expensive systems. They perfectly decorate balconies and structures, adding lightness to them. They outline the space, ensure discretion and give shade. They slow wind and rain with their surface. They are a valued choice for their functionality along with low purchase costs, beautiful, ethereal look, easy installation and use, and adjustment almost to any structure.

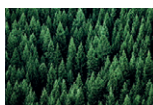

Note! When choosing a product, please read the instructions for use.
